Hello Charles and Jeff:

The Tetra Tech instance of the Scribe.NET DB Service is currently subscribing to projectid 1082 DW Reporting and projectid 1260 USGSDW. I spoke with Jeff today who indicated the Tetra Tech hosted instance is running and up to date which includes all the updates as a result of the scrubbing process.

Project ID	Project Name	Owner	Latest Version	Last Published
1082DW_Reporting		Deepwater	219	5/2/2011 13:19
1260USGSDW		USEPA Region 6	18	4/28/2011 11:44

Thanks,

Frank

Subject: Connect with SCRIBE Orator Server

Eric, Joe, Frank

With the SCRIBE scrubbing finished, we are trying to pull data from the SCRIBE Orator server. Would one of you be able to confirm that the link we are using to the correct link

I looked at config file for scribe services (at Tetra Tech) and we are connecting to https://www.epaossc.org/scribe_net/subscription_service/subscriber.aspx web services, not sure if this one is SCRIBE SQL Orator server?

Please see below for the attribute in the config file.

```
<add key="sOmarURL"
value="https://www.epaossc.org/scribe\_net/subscription\_service/subscriber.aspx"
/>
```

Thanks
Charles
